FULL STACK / BACKEND DEVELOPER

Highly motivated Full Stack / Backend Developer with experience in building scalable, API-driven web applications and backend systems. Proficient in JavaScript, Node.js, RESTful APIs, and database management with a strong focus on performance and security. Experienced in integrating frontend and backend components to deliver end-to-end solutions.

EDUCATION

2021-2025

Pratap Institute of Technology & Science, Sikar

Bachelor of Technology Computer Science & Engineering **CGPA: 8.25**

Abhilasha International School, Sandwa (bidasar) Jul 2020- May 2021

CLASS 12TH RBSE **93.60%**

Shree Ganpati shikshan sansthan, Parewara (churu) June 2018 - May2019

CLASS 10TH RBSE **80.67%**

TECHNICAL SKILLS

Languages: Java, C++, JavaScript, python, SQL **CS Fundamentals:** OOPs(C++), DBMS, DSA(C++), OS

Web / backend: React, Node.js, Express.js, REST APIs

Databases: MongoDB, MySQL **Soft Skills:** Problem Solving, Team Collaboration, Time management

Developer Tools: Git, GitHub, Vs Code, Postman

EXPERIENCE

Full Stack Web Development (MERN) - Learn and Build **May 23- July 23**

- Developed full-stack applications using React, Node.js, Express and MongoDB.
- Designed RESTful APIs with proper status codes and error handling.
- Integrated third-party APIs and implement ed secure environment configuration.
- Used Git branching strategy (feature, dev, main) for structured collaboration.

Full Stack Development with AI - Edureka **Sep 24- Nov 24**

- Built AI-powered full-stack app by integrating React, Node.js, Express.js, MongoDB, and Generative AI APIs.
- Implemented user authentication, authorization, validation, and secure API workflows.
- Built full-stack interfaces capable of handling real-time AI responses using WebSockets and efficient streaming techniques.

PROJECTS

Aug 2023- Dec 2021

Real-Time Chat Application

- Built a real-time messaging system using Node.js, WebSocket, and MongoDB.
- Implemented secure authentication using JWT, protected routes role-based access.
- Focused on low-latency message delivery, clean API design and add features.

Full-Stack Blog Application **Nov 2024- Jan 2025**

- Built a responsive full-stack blogging platform using JavaScript, Ejs, Node.js, and MongoDB.
- Implemented secure user authentication and authorization using JWT and bcrypt password hashing.
- Deployed on AWS and managed static assets via S3 with focus on reliability and scalability.

CERTIFICATIONS

Full Stack Development with AI - Edureka

Full Stack Web Development (MERN) - Learn and Build

ACHIVEMENTES

Co-ordinator-Technical Event, Pratap College
